

Sameer Khan

Senior DevOps / Cloud Engineer

khannsameer1211@gmail.com | +91 7440612682 | Khandwa, MP, India | LinkedIn

SUMMARY

Senior DevOps and Cloud Engineer with ~5 years of experience architecting and operating cloud-native infrastructure across AWS, Azure, and GCP. Deep expertise in Kubernetes (EKS, GKE, AKS, Minikube), Pulumi and Terraform IaC, Helm chart-based deployments, and GitHub Actions CI/CD. Consistent track record of migrating legacy stacks to modern orchestration platforms and delivering production-grade observability and secrets management solutions.

EXPERIENCE

DevOps Engineer

TokenTide | Remote | Nov 2025 – Present

- Migrated all production services from NGINX Ingress Controller to AWS EKS and Minikube, improving routing control and scalability.
- Deployed Dgraph database across Dev, Test, and Prod environments using Pulumi IaC, maintaining full environment parity.
- Built Grafana dashboards for all three environments covering logs and infrastructure metrics, delivering end-to-end observability.

Senior Cloud Engineer

Compliance Innovation Pvt Ltd | Bengaluru | Jul 2024 – Nov 2025

- Deployed applications on AWS EKS and Minikube using Docker and Pulumi IaC with full onboarding via the Pulumi Operator.
- Migrated Indicios application stack from Docker Compose to Helm charts and deployed end-to-end using Pulumi.
- Provisioned and managed Neo4j databases using Pulumi, with automated S3 backup workflows for data retention and recovery.
- Developed GitHub Actions CI/CD workflows for automated builds, testing, and multi-environment deployments.
- Migrated application secrets from HashiCorp Vault to AWS Systems Manager Parameter Store for centralized configuration management.
- Implemented External Secrets Operator (ESO) via Helm charts integrated with AWS Parameter Store for Kubernetes secret syncing.
- Onboarded multiple applications for deployment on Google Kubernetes Engine (GKE) with standardized deployment patterns.
- Managed DNS configurations and traffic routing for production workloads using Cloudflare.

DevOps Engineer

Cybage Software Pvt Ltd | Pune, Maharashtra | Jul 2021 – Jul 2024

- Automated provisioning of Azure Kubernetes Cluster, Azure MySQL, and Azure SQL Server using GitHub Actions and Terraform.
- Containerized Java and .NET applications and deployed images to DockerHub and Azure Container Registry.
- Orchestrated deployment of SpringBoot REST API and React applications on Azure Container Instances.
- Led Database DevOps implementation for Victra (Verizon) — automated end-to-end SSDT project builds and production deployments via Azure DevOps.
- Implemented CI/CD pipelines for Android and iOS applications using Azure DevOps, deploying to production environments.
- Built MIS Dashboard on Microservices architecture deployed on AKS; automated infrastructure provisioning using Terraform and GitHub Actions.
- Implemented GraphQL as API Gateway with ASP.NET Core and HotChocolate for data aggregation across microservices.
- Streamlined database migration processes using Flyway across multiple environments.

SKILLS

Cloud	AWS (EKS, S3, Systems Manager, Parameter Store) Azure (AKS, ACI, App Service, ACR) GCP (GKE)
Kubernetes & Helm	EKS, GKE, AKS, Minikube, Helm Charts, Pulumi Operator, External Secrets Operator (ESO)
IaC	Pulumi, Terraform
CI/CD	GitHub Actions, Azure DevOps
Observability	Grafana (logs, metrics, dashboards), SonarQube

Databases	PostgreSQL, MongoDB, Neo4j, Dgraph, Azure MySQL, Azure SQL Server
Secrets Mgmt	HashiCorp Vault, AWS Parameter Store, External Secrets Operator
Networking / DNS	NGINX Ingress Controller, Cloudflare
Languages & Tools	Shell Script, Java, Docker, Git, Maven

KEY PROJECTS

- **OnyxPlus / Indicios (Telos)** — Multi-env Pulumi deployment on EKS and Minikube; Helm chart migration from Docker Compose; Neo4j provisioning with automated S3 backups.
- **Simplici / Liquidity** — GitHub Actions CI/CD pipelines; Vault-to-SSM secrets migration; ESO implementation; GKE onboarding; Cloudflare DNS management.
- **Victra (Verizon)** — Azure DevOps pipelines for Database DevOps (SSDT); Android and iOS CI/CD to production.
- **MIS Dashboard** — Microservices on AKS with Terraform + GitHub Actions; SpringBoot REST API; GraphQL Gateway with ASP.NET Core and HotChocolate.

EDUCATION

PG Diploma in Advanced Computing — CDAC, ACTS Pune | 2020 – 2021

Bachelor of Engineering — Shri Dadaji Institute of Technology & Science, Khandwa | 2016 – 2020

CERTIFICATIONS

- **Certified Kubernetes Administrator (CKA)** — The Linux Foundation | Cert No. LF-ig7ixm4i9p
- **Microsoft Azure Fundamentals (AZ-900)** — Cert No. I324-1514
- **Azure Developer Associate (AZ-204)** — Cert No. 1453-0384
